

Caught in a Maze? Looking For A New Direction?

Are you currently self employed, caught in the vicious circle of having a business that has the potential but not the finances to give you the salary you desire? On paper you may have a business with a growing client base and a large file of outstanding invoices. However, you find that you are working long hours, struggling to make ends meet and still live hand to mouth. With so much work to do and so little time to perform the necessary tasks of chasing up outstanding invoices, marketing your services, managing your accounts and overseeing the everyday running of your business, any potential for expansion and development is restricted.

All too often you are working so hard on your business and doing all the work that you forget the reasons why you started. You operate on a shoestring budget and fall in to the rut of working to live, forgetting all the plans and goals you originally made, convincing yourself that your on the right track and unable to recognize opportunities that present themselves to you. If you sit back and relax for five minutes you can remember some of the reasons why you began your business. It was probably for a better quality of life, working your own hours, spending more time with friends and family, having more holidays, doing work you enjoy or maybe being in control of generating your own wealth.

The very nature of running a business is recognising when things aren't going to plan, having the courage to make a change and the determination to see it through.

We are currently employing agents who already have there own client base working within the Private Investigation and Legal Support industry. The Agents are employed by our company and receive all statutory benefits. With the advantage of not having to deal with all the time consuming administration tasks that come with running a business, you have more time to concentrate on generating your own wealth, giving you the opportunity to potentially earn as much as you want.

As an employed Agent of the company you are responsible for the amount of work you generate from any of your existing or new clients. The company provides marketing and resources to help develop your customer base. Agent's salary's are based on the amount of jobs completed in a calendar month. Any expenses or mileage costs are paid on a weekly basis.

If you would like to apply for a position as one of our Agents or discuss this opportunity further please contact Mark Gill on 01922 213111.
